

aware, you were the type of person who would just keep going until nature rebelled, and you just had to give up.

While perhaps this may be an intrusion, please forgive me Mrs. Downes, I just had to write.

How I can never never forget all your kindness to me. In all my life I have yet to ^{meet} one who fulfilled all of Christ's teachings so fully as you have done, you were the truest and best friend, to all under your care, and no one felt your loss more keenly than I. I wanted to send you a card but knew I wasn't going down town before Saturday, therefore took the liberty to write.

May each day bring you added strength and ultimate recovery.

Sincerely

Alie Evans
