

Just a couple of letters
to my kids '86 + '91

Sept. 25, 1991

Hello Kees! :

If anyone doesn't get the following joke, please call Jacobo: "Did you hear about the Spanish naurder?" - No - "Well, this man was shot with a golf gun". - There is no such thing - "Well, it sure made a hole in Juan" - (Well, maybe someone else never heard it before.)

I think this idea of group letters is a good one. so I take pen in hand to bring you all up to date on 4954. I would start out by saying there is no connection between receiving the original copy and affection. I must confess however, that the one receiving the second copy is truly my favorite.

Nancy arrives this coming Friday - I will check to see how much more she knows now that she is closing in on a Ph.D. I do give her credit; the academic road sign pointing to "doctor" is not an easy one. - Then, on Oct 16 Peg, Joe, and Margaret arrive. I expect to see a calloused index finger on Joe's hand he is really working on his uhulele lessons. Peggy informs me that she, too, has joined the grass shirt society and now plays a wicked 5'2. -

Following ~~in~~ Peg, Dorothy arrives
